

BRAZEN MIND BEAUTY & AESTHETICS SCHOOL

OPEN ADMISSION FOR 2026

All courses are accepting applications. Please visit our Facebook or website for more information.

CALL / WHATSAPP: 063 287 7827

VISIT US:
4 CYPRESS ST, KEMPTON PARK

It's a competitive world, train for it

OUR LOCATION:

Brazen Mind Beauty and Aesthetics is located in the heart of Kempton Park CBD, but in a quiet location. You will be able to study in comfortable, quiet, and gorgeous surroundings away from the noise of the city! There is plenty of public transport from everywhere, including Tembisa and Johannesburg. We have safe parking with security.

WHO WE ARE

All of our tutors are fully qualified teachers with many years of experience in intensive teaching methods, with their own specialty subjects which they not only teach but also practise in the beauty and holistic field either as therapists or salon owners themselves.

WHAT WE DO

At Brazen Mind Beauty and Aesthetics, we offer a wide range of beauty therapy training courses, both full-time and part-time, and students may choose either a complete beauty therapy course or an individual module.

You will be provided with the appropriate equipment needed to undertake your course, and all training manuals are included to optimise your learning. Models are provided for the majority of courses.

CAREERS

Job Placements, career advice, and interview techniques are offered to those attending our courses.

- Hair growth patterns
- Product, tools and implement knowledge
- Professional tinting techniques and use of tinting
- Hygiene, safety, and aftercare procedures.
- Contraindications to treatment

Eyelash Extensions -Cluster

Individual groups of false eyelashes are adhered to the natural lash to give a longer and thicker look. Often called cluster lashes or party lashes this is a relatively quick treatment for you to do but gives instant emphasis and definition to the eyes. This treatment lasts up to 4 weeks and can be maintained regularly.

Course Content:

- Comparison of various lash extensions
- Hair growth patterns
- Cluster lash length selection and application, strip lashes application
- Use and purpose of implements, product knowledge

Eyelash Extensions -Cluster

- Hygiene, safety and aftercare procedures
- Contraindications to treatment

Eyelash Extensions – Classic Semi Permanent

This type of extension is a semi-permanent treatment that is safe, effective, and dramatically enhances the appearance of the eyes with immediate results. Lashes can last 3 to 4 weeks with regular top-up treatments. For a complete look, the natural lash can be tinted beforehand to blend and add emphasis.

Course Content:

- Structure and hair growth patterns of the eyelashes
- Correct cleansing techniques
- Lash selection and application
- Types of lashes – curl, thickness, styles
- Use and purpose of implements, product knowledge
- Hygiene, health and safety, aftercare procedures
- Contraindications to treatment
- Salon procedure, marketing, costing, and timings

Lash Lifting and Tinting

Course Content:

- Contraindications to treatment
- Salon procedure, marketing, costing, and timings
- Product, tool, and implement knowledge
- Treatment procedure
- Relevant anatomy and physiology
- Patch testing of products and client aftercare

Eyebrow Shaping and Tinting

Shaping and maintaining eyebrows to enhance the face using the traditional tweezer and waxing methods to give the perfect brow shape and professional maintenance treatments. This course also includes brow tinting.

Course Content:

- Structure and function of hair
- Selecting the eyebrow shape
- Comparing hair removal methods
- Use and purpose of implements
- Treatment procedures with tweezing, waxing, and trimming
- Hygiene, health and safety, sterilisation, and aftercare

Threading

Threading involves removing hair using cotton thread which is twisted and pulled along the skin surface of the unwanted hair, lifting the hair directly from the root. The hair is caught in the traveling cotton thread and pulled out from the follicle – resulting in a longer-lasting method of hair removal with no side-effects.

Course Content:

- History of threading.
- 3 traditional methods of threading
- Compare and contrast various methods of hair removal
- Body and face threading
- Brow shaping using the threading method
- Theory and practical threading
- Hygiene, health and safety
- Pre-treatments and aftercare procedures
- Contraindications to treatment

Full Eyebrow Definition

Course Content:

- Shading, pencilling, arc definition and contouring
- Compare and contrast various methods of hair removal
- Facial hot waxing
- Hygiene, health and safety
- Pre-treatments and aftercare procedure
- Contraindications to treatment

Brow Lamination and Tinting

Course Content:

- What is Brow Lamination? Benefits and uses
- Products and tools required
- Compare and contrast various methods of lamination
- Brow Lamination procedures, brow shapes, and styles
- Hygiene, health and safety
- Pre-treatments and aftercare procedures
- Contraindications to treatment

Waxing

Learn professional waxing techniques for the removal of hair from all parts of the body and face. We use a variety of different waxing products in this course giving thorough and comprehensive training in all aspects of warm wax depilation.

Course Content:

- Compare various methods of hair removal, shaving, creams, hot and warm wax etc
- Products, tools, and equipment knowledge
- Hygiene, health and safety
- Structure and function of the skin and hair
- Depilatory techniques – spatula and roller methods
- Client aftercare and contraindications

Swedish Body Massage

Professional instruction in both Swedish Body Massage including Anatomy and Physiology. Ideal for those wanting to offer a relaxing massage and advance into Holistic and Complementary treatments.

Course Content:

- Understanding the basic functions of the body (Anatomy and Physiology)
- Systems and functions of the body
- Description and use of the classic massage movements:
- effleurage, pettrissage, tapotement, hacking, cupping etc
- Practical application of Swedish Massage
- Therapeutic use of massage
- Physiological and psychological effects
- Salon marketing, costing, and timings
- Hygiene, health and safety
- Product and equipment knowledge
- Contraindications and precautions
- Client consultation and aftercare

Stone Therapy Massage

The therapy of using heat and stones on the body dates back 1000's of years, with many different civilizations using them either for healing, worship or other rituals. This is traditionally a full-body treatment that can be performed dry or with the use of products.

Course Content:

- History of stone massage, chakras, and auras
- Relevant Anatomy and Physiology

Stone Therapy Massage

- Advantages of treatment, therapeutic body massage
- Contraindications and precautions
- Therapeutic massage to the body

Indian Head Massage

Indian Head Massage is a relaxing holistic treatment that uses acupressure. The movements are derived from the Indian healing lines and developed over many centuries and are still used successfully today. Just some of the benefits of an Indian head massage are relief from stress, anxiety, and tension, feelings of deep relaxation, improved mood, improved sleep, and a general sense of health and well-being. This massage achieves a deep sense of relaxation, mental calming, and balance of the body's energy. This treatment helps to relieve neck, shoulder, and muscular pains. The Indian Head Massage is performed with the client in a sitting position or laying and fully clothed, making it possible to carry it out using very little equipment and in an environment that need not be totally private.

Course Content:

- The history of Indian Head Massage
- Effects and advantages of Indian Head Massage
- Contraindications to treatment
- Relevant anatomy and physiology
- Indian Head Massage procedure

Reflexology

Reflexology (Reflex Zone Therapy) is a complementary science dealing with the principle of reflexes in the feet which correspond to organs of the body. The compression of these zones restores and balances the nerve pathways, so improving the well-being of the body.

Course Content:

- History of Reflexology
- Structure of the foot, skeletal and muscular systems
- Orientation of the feet
- Client approach, consultation and devising a treatment program
- Zones – their position and relation to organs and function
- Psychological and physiological effects
- Salon marketing, timings and costings

Reflexology

- Concepts and theories as to how and why it works
- Hygiene, safety procedures and contraindications
- Advanced treatment procedures
- Reflexology as a diagnostic tool – medical history
- Treatment by Reflex Zone Therapy for specific conditions
- Record keeping

Advanced Intimate Hot Waxing

Intimate hair removal from sensitive areas using Brazilian hot wax (stripless flexible wax) including full bikini waxing, a professional and competent full Brazilian, Playboy, or Hollywood bikini wax.

Course Content:

- The differences between Brazilian, Hollywood, and Playboy waxes
- Brazilian, Playboy, and Hollywood methods
- Hot and warm wax methods and differences
- Advantages and disadvantages
- Hygiene, health and safety
- Pre-treatments and aftercare
- Contraindications to treatment
- Practical application and treatment

Microdermabrasion

Microdermabrasion is a popular, safe and effective advanced skin treatment. A non-surgical method of skin rejuvenation by means of mechanical skin exfoliation and offers a pain-free alternative to chemical and laser peels. It is a versatile procedure that can be combined with other treatments to help achieve the desired results.

Course Content:

- Microdermabrasion benefits
- Effects of microdermabrasion treatments
- Comprehensive treatment routine
- General product knowledge
- Contraindications to treatment
- Hygiene, sterilisation and after-care
- Advantages and disadvantages to treatment
- Practical instruction and application of treatment

Deep Tissue Massage

This is a type of massage therapy that applies firm pressure and slow strokes to reach deeper layers of muscle and fascia. It is used for treating chronic aches, pain, and contracted areas such as the upper and lower back, muscle tightness, and sore shoulders. Deep tissue massage techniques are used to break up scar tissue and break down muscle 'knots' and adhesions which can disrupt circulation and cause pain, limited range of motion, and inflammation.

Course Content:

- Myofascial tissues
- Massage technique application
- Benefits of the treatment
- Trigger points, neuromuscular technique (NMT), and Ischemic Compression
- Contraindications to treatment
- Practical massage technique

Henna Brows

Henna brows are a form of eyebrow tinting that is used to stain the skin beneath the brow hairs. The purpose of this is to cast a shadow or create an illusion of depth and fullness in the area, visually filling in any sparseness, and creating full and defined eyebrows.

Henna has been around since ancient Egyptian times when it was used for many purposes such as dyeing hair, clothes, fabric and also as makeup. The process for henna brows is very similar to henna coloring methods you may see in traditional Indian culture, however, the shades have been adapted and formulated with colour pigments added to cater to eyebrow tones, giving the Henna a beautiful light to dark brown colour.

Course Content:

- Introduction to Henna Brows
- Brow mapping and brow shaping
- Contraindications to treatment
- Anatomy and Physiology of the skin and hair
- Correct colour choice and consultation
- Correct treatment procedure
- Salon marketing, costings, and timings
